THE ULTIMATE
UV FREE TAN

ClassicTan

Why Classic Tan?

The Classic Tan cabin is designed to be an efficient, quick and pleasant treatment.

Its exclusive application system based on layers LAS® (Layer Application System) ensures an optimum penetration of the tanning lotion. The result is a - natural looking - golden tan which lasts over a week.

Easy and simple.

Tanning with Classic Tan is easy and simple thanks to its advanced technology.

Acoustic instructions are broadcasted from the inside of the cabin, guiding the user on the simple and easy steps to follow.

20 nozzles distribute the tanning lotion to each of the 4 sides of the user. In total 64 micro atomizations which deliver and attractive and instant golden tan.

How does it work?

The Classic Tan lotion's advanced formula works with a dual action sequence.

- The first sequence produces an instant and attractive ??? to the skin.
- The second stage continues over the next 4-6 hours to produce a natural and healthy looking golden tan.
