

Classic Tan Soft Blending Glove

Blending is an important part of the sunless tanning process and we at Classic Tan spend much time in improving the ergonomics and speed of this process.

With the newly introduced Soft Blending Glove clients will find the process is faster and very effective. Our tests have shown that the light massage effect given with the Soft Blending Glove not only blends but it helps penetration and in turn gives a longer lasting tan.

The Soft Blending Glove is washable and can be used over and over again.

Some clients may prefer to purchase a Soft blending glove of their own and we recommend that these are displayed for clients to purchase. To facilitate this each Soft Blending Glove is supplied in a clear plastic display bag with a hanging loop.

Salon - Trade Prices

| | |
|--------|--------|
| Retail | £ 1.75 |
| 1-5 | £ 1.10 |
